

MO Report 2004

Ugandan World Federalists

In February, WFM Uganda participated in a conference on leadership organized by the Republican Institute. Leadership skills were taught and we shared a lot of experiences with civil society organizations and political parties within Uganda. WFM Uganda participated in a donors conference organized by the United Nations Associations of Uganda and there was an exchange of views on the war in Northern Uganda and the peace process. WFM Uganda share the necessity of the ICC and the CICC Project that promote world law and world peace. WFM Uganda met with CICC Anglophone Africa Coordinator Benson Chinnedu Olugbuo and discussed ways and means of implementing the CICC Project. The meeting took place at the Grand Imperial Hotel in Kampala and it was fruitful. The WFM Executive Director, Membership Director, and Program Assistant are thanked for their input so that this meeting could take place.

The CICC Project Campaign

WFM Uganda started a CICC project campaign at Katwe enclave in Kampala and many distinguished scholars and dignitaries attended. The CICC meeting was organized by WFM Uganda in conjunction with Hon Y.N. Nsambu, patron of WFM Uganda and his parliamentary office.

The major goal of this campaign was to explain to the local people in their local language what the CICC project means and its advantages. The meeting was attended in the thousands.

Financial Report

WFM Uganda's financial position has not been good this year. We have been involved with a project entitled "Hereditary Institutions in Federal System" worth 37,500 USD which we submitted to the Canadian Embassy and it has cost a lot in terms of research and documentation. Submission of the proposal has already been done. If we succeed we shall be able to invite Canadian Senator Lois Wilson as a guest speaker.

Strategic Plan of Action

WFM Uganda is working tirelessly to host a WFM Council Meeting or a Congress, the first on in Africa and we have the ability and courage. Dr. Knut Berdal tasted our ability while on a mission to Africa in 2002.

If the Canadian Embassy gives us the funds for the international seminar, this would boost work for WFM in Uganda. In its executive meeting, WFM Uganda members were urged to fight corruption and promote accountability and transparency. WFM Uganda shall continue to promote the CICC project in Africa as we assured the Anglophone Africa Coordinator of the CICC project and to act as a role model in accounting for whatever funds are given to us. In this way we will build transparency and a reputation for the future.
