Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

WORLD FEDERALIST MOVEMENT/  
INSTITUTE FOR GLOBAL POLICY, INC.  
NOTES TO FINANCIAL STATEMENTS

(1) Nature of activities:

The World Federalist Movement/Institute for Global Policy, Inc. (the "Organization") is a not-for-profit organization formed in 1995 under the laws of New York State. The Organization is based in New York City near the United Nations (the "UN") headquarters, and is supported primarily by donor contributions and grants. The Organization is a legal entity of the World Federalist Movement, a coalition of peace movements formed in 1947 to promote the federalist principles of constitutional democratic rule of law as the basis of relations between nations, as the framework for the international legal order, in the governance of the UN, and in the UN Charter goal to "save future generations from the scourge of war." The Organization undertakes research and education into issues concerned with history, promotion and development of international democracy and of law and the strengthening of the legal order with a special focus on the United Nations. The Institute for Global Policy also serves as the Secretariat of the NGO Working Group on the Security Council. The following programs and supporting services are included in the accompanying financial statements:

Coalition for the International Criminal Court ("CICC")

Works with nongovernmental organizations, governments, international and regional organizations and the United Nations Secretariat to support the fair and effective functioning of the International Criminal Court ("ICC"); promotes global awareness of the Rome Statute of the ICC; facilitates the effective participation of civil society in inter-governmental negotiations; monitors and supports the full effective functioning of the ICC; and strengthens regional human rights networks.

International Coalition for the Responsibility to Protect

Works to promote earlier and more effective international responses to genocide and mass atrocities; to increase awareness of the responsibility to protect; to mobilize non-governmental organizations ("NGO's") to demand responsibility to protect responses to emerging crises; and to build capacity of governments, regional organizations, and the UN system to ensure fulfillment of the responsibility to protect.

International Democratic Governance ("IDG")

Promotes greater transparency and accountability in international decision-making processes. Supports a stronger, more inclusive and effective United Nations, better global governance of environmental issues, as well as strengthened global economic governance. The IDG program produces news and analysis on these issues and manages civil society campaigns in support of widely-shared goals about better global solutions to pressing global problems, including the work of the Peacebuilding Commission ("PBC") with the Global Partnership on Prevention of Armed Conflict, Post 2015 Women's Coalition, Gender Equality Architecture Reform ("GEAR") campaign and IKV Pax Christi project focusing on conflict prevention, disarmament (including nuclear disarmament), peacebuilding and the protection of civilians in the Sudan and Syria.

Administration

Includes the functions necessary to maintain an equitable employment program; ensures an adequate working environment; provides coordination and articulation of the Organization's program strategy; secures proper administrative functioning of the Board of Directors; and manages the financial and budgetary responsibilities of the Organization.

## Fundraising

Provides the structure necessary to encourage and secure financial support from individuals, foundations and governments.

### (2) Summary of significant accounting policies:

#### Basis of accounting and financial statement presentation

The accompanying financial statements are presented under the accrual basis of accounting in accordance with U.S. generally accepted accounting principles and include the accounts of the Organization's programs, administration and fundraising. U.S. generally accepted accounting principles require the Organization's financial statements to distinguish between unrestricted, temporarily restricted and permanently restricted net assets and changes in net assets. The Organization's net assets consist of the following:

Unrestricted - net assets of the Organization which have not been restricted by an outside donor or by law and are therefore available for use in carrying out the operations of the Organization.

Temporarily restricted - net assets of the Organization which have been limited by donor-imposed stipulations or by law that either expire with the passage of time or can be fulfilled and removed by the actions of the Organization pursuant to those stipulations.

Permanently restricted - net assets of the Organization which have been restricted by donors to be maintained in perpetuity by the Organization.

The Organization follows U.S. generally accepted accounting principles regarding Endowments of Not-for-Profit Organizations: Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act ("UPMIFA") and Enhanced Disclosures for All Endowment Funds which require a portion of a donor-restricted endowment fund that is not classified as permanently restricted net assets to be classified as temporarily restricted net assets until appropriated for expenditure.

The Organization also presents statements of cash flows in accordance with U.S. generally accepted accounting principles.

#### Revenue and expense recognition

Donations and grants are recognized as income when received and are considered to be available for unrestricted use unless specifically restricted by the donor. Revenues under contracts for service are generally recognized as earned. Deferred income arises from payments received under contracts for service prior to revenue recognition. Expenses are recognized when incurred. The Organization allocates its expenses on a functional basis among its various programs, supporting services and fundraising. Expenses that can be identified with specific program and supporting services are allocated directly according to their natural expense classification. Other expenses that are common to several functions are allocated by various rational bases.

#### Cash and cash equivalents

All highly liquid investments purchased with a maturity of three months or less are considered to be cash equivalents for financial statement purposes.

### Investments

Investments are recorded at fair value. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Organization follows U.S. generally accepted accounting principles regarding fair value measurements which establish a fair value hierarchy requiring an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

### Fixed assets

Fixed assets are stated at cost or current fair value for donated items. Maintenance and repairs are expensed as incurred. Depreciation is provided using the straight-line method over the estimated useful lives of the assets (generally periods of three to ten years).

### Foreign currency translation

Certain donations and grants are derived from foreign sources. Such amounts are translated at the exchange rate in effect at the date the donation is received. As of December 31, 2013 and 2012, the Organization recorded a gain (loss) on foreign currency translation of \$4,797 and \$(19,061), respectively.

### Income taxes

The Organization qualifies as a tax-exempt nonprofit organization under Section 501(c)(3) of the Internal Revenue Code and applicable New York State tax laws. Accordingly, no provision for federal or state income taxes is required.

### Uncertainty in income taxes

The Organization has determined that there are no material uncertain tax positions that require recognition or disclosure in the financial statements. Periods ending December 31, 2010 and subsequent remain subject to examination by the applicable taxing authorities.

### Prior year summarized information

The statement of activities and changes in net assets includes certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with U.S. generally accepted accounting principles. Accordingly, this statement should be read in conjunction with the Organization's financial statements for the year ended December 31, 2012, from which the summarized information was derived.

## The use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts of assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the period. Actual results may differ from those estimates.

### (3) Fair value measurement

The Financial Accounting Standards Board ("FASB") Fair Value Measurement standard clarifies the definition of fair value for financial reporting, establishes framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable. The Organization has adopted the standard for its financial assets and liabilities measured on a recurring and nonrecurring basis.

Fair Value Measurement defines fair value as the amount that would be received from the sale of an asset or paid for the transfer of a liability in an orderly transaction between market participants, i.e. an exit price. The three levels of fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reported entity has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

The following methods and assumptions were used by the Organization in addressing the fair value of financial instruments:

#### Cash and cash equivalents -

The carrying amounts reported in the statements of financial position for cash and cash equivalents approximate those assets' fair values (which include certificates of deposit).

#### Mutual funds -

Mutual funds consist primarily of equities, bonds, and U.S. government securities.

#### Common stock -

Common stock is valued at the closing market price on the stock exchange where such stocks are traded (primarily the New York Stock Exchange).

During the year ended December 31, 2013, the Organization sold all of its investments. The following table represents the Organization's fair value hierarchy for investments as of December 31, 2012:

	<u>Fair value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Mutual funds	\$ 114,710	\$ 114,710	\$ -	\$ -
Common stock	<u>7,436</u>	<u>7,436</u>	<u>-</u>	<u>-</u>
Total investments	<u>\$ 122,146</u>	<u>\$ 122,146</u>	<u>\$ -</u>	<u>\$ -</u>

As of December 31, 2013 and 2012, the Organization did not possess any level 2 or 3 types of investments.

Accounts payable and accrued expenses -

The carrying amounts of accounts payable and accrued expenses approximate their fair value due to their short-term nature.

	<u>\$ 2,552,968</u>	<u>\$ 2,636,668</u>

(8) Permanently restricted net assets

The Betsy Dana Scholarship Fund represents a scholarship fund for a permanent annual internship to the Organization. This fund was established by the immediate family and friends of Betsy Dana to honor her memory and must maintain a minimum interest bearing cash balance of \$25,000. The excess over this amount represents fund income available for scholarship.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or applicable law requires the Organization to retain as a fund of perpetual duration. There were no such deficiencies as of December 31, 2013 and 2012.

The Organization has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to protect the original value of the gift.

The Uniform Prudent Management of Institutional Funds Act ("UPMIFA") requires the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument.

Net assets associated with endowment funds are classified and reported based on the existence or absence of donor imposed restrictions.

Changes in endowment net assets for the years ended December 31, 2013 and 2012 are as follows:

	<u>2013</u>	<u>2012</u>
Endowment net assets, Beginning of year	\$ 25,000	\$ 25,000
