

## **OFFICIAL STATEMENT**

7 April 2021

**THE HAGUE** - The World Federalist Movement / Institute for Global Policy (WFM/IGP) announces today the Executive Committee's decision to stop operations of the WFM/IGP Secretariat on current programs and projects that are running out of sufficient funding over the next months.

WFM/IGP will continue operations, minimized, to allow for a new chapter of growth for our organization. The Executive Committee recently reviewed and approved a new Strategic Plan for 2021-23 which will be brought to our governing body, Congress, in July 2021 for final approval.

The plan expands our Coalition model and outlines three new areas of work to ensure we achieve impact and ensure global Federalism becomes reality in the next decades.
