Operations Update on the Coalition for the International Criminal Court (CICC)

1 July 2021 -- The Women's Initiative for Gender Justice ([WIGJ](#)) formally takes over administration for the hosting of the Coalition for the International Criminal Court ([CICC](#)) effective today. WFM/IGP will maintain a seat on the Coalition's Steering Committee.

Launched in 1995 when a group of 25 human rights organizations began campaigning for a permanent International Criminal Court, the CICC has grown to 2,500 members in 150 countries ranging from community to grassroots groups with a shared interest in holding individuals to account for war crimes, crimes against humanity and genocide. WFM/IGP is honored to have supported the growth of the CICC and looks forward to its continued impact, particularly with inclusion of input from civil society organizations in the Global South.
